

presents... a **Training Program for China Experienced Executives**

The program on February 3rd will bring together industry leaders in their fields who will provide practical, technical skill training.

This is a conference for individuals with at least 3 years experience in China!

We invite you to attend a conference designed for executives who focus on China

- The program is designed to provide you with specific information you can use.
- Our speakers are industry veterans who have extensive “on the ground experience” in China.
- You will gain working knowledge in topics that you can implement immediately.
- An opportunity to network with your peers.

China Resource Network

Who we are: a peer-to-peer networking group for executives looking to participate in a dialogue regarding their business efforts in China.

What is our purpose: to provide a “brain trust” of information for the experienced executive in how to succeed in China. We recently established an **online FORUM** for members to communicate with each other for specific advice. In select cities to meet monthly to discuss topics presented by members or the facilitator and to assist each other.

Who are our members: Members come from industry and their companies must be actively involved in China.

Who is the facilitator: Kim Kirkendall, President of Office Outsource, Inc. is the facilitator.

How can I inquire about joining?: Contact us by email at info@chinaresourcenetwork.com

Kim Kirkendall can be reached through China Source Link at: 330-659-0835.

What is the history behind this conference?

First, the group: China Resource Network was formed from a comment made by Ike Tripp, of Etna, at a conference on China in the beginning of 2004. This came after a presentation by Kim Kirkendall that created an interactive dialogue between the attendees.

Afterwards, his question was... “can we do this again?” And so China Resource Network was organized by Ms. Kirkendall and a group of executives at the conference that day.

Then we started our own conference series: We wanted to take the opportunity to a larger group of people and bring in the best technical speakers—from industry. The first conference met with an overwhelming response from attendees. Our goal is to bring this information to the group and to the community twice a year.

The conference speakers are CRN group members or they represent companies / individuals known to us over the years. This is a very personal and interactive conference.

We welcome your involvement—speak up!
